

# OREGON

The simple  
choice for  
energy  
efficiency.

Updated April 2019

## Families and businesses are saving with the help of ENERGY STAR®

Oregon is home to about **180** businesses and organizations participating in U.S. EPA's ENERGY STAR program:

- 7** manufacturers of ENERGY STAR certified products
- 7** companies supporting independent certification of ENERGY STAR products and homes
- 61** companies building ENERGY STAR certified homes, 2 of which are committed to building 100% ENERGY STAR, as well as many businesses, schools, governments, and faith-based groups using ENERGY STAR to reduce energy waste.

### Across Oregon

- 2 million customers** were served by ENERGY STAR utility partners in 2018
- 3,697 buildings** (more than 272 million square feet) were benchmarked in 2018 using EPA's ENERGY STAR Portfolio Manager
- 24,761 homes** have earned the ENERGY STAR
- 387 buildings** have earned the ENERGY STAR for superior efficiency, including 107 schools, 3 hotels, 6 hospitals, 139 office buildings and 5 industrial plants.

Portland VA Medical Center, Portland, OR. First earned ENERGY STAR certification in 2002.

### State Spotlights

"The Portland VA Medical Center is very pleased to have earned the ENERGY STAR. The money that we save from being energy efficient can be used to further the health care of our nation's veterans. Being fiscally responsible is another way for us to say thank you to all of those who have served our country," – Rick Hibbs, Chief Projects & Operations, VA Medical Center Portland

Gresham-Barlow School District, serving 12,000 students across 19 schools, recertified all 18 school buildings that were eligible to receive ENERGY STAR certification in 2016. This effort contributes to the **more than \$14.5 million saved** since implementing a comprehensive energy management approach in 2004.

In 2016, Portland, OR, ranked #20 on EPA's annual list of top cities with the most ENERGY STAR certified buildings. Portland's certified buildings **saved more than \$8 million** collectively.

*"The strength of the ENERGY STAR brand has provided value to our builders and homeowners looking for a trusted resource during the homebuilding and buying process."* – Neil Grigsby, Northwest Energy Efficiency Alliance

### Recent ENERGY STAR Award Winner(s)

- Four Walls, Inc.
- GreenSavers
- Gresham-Barlow School District
